Career Objective

Motivated undergraduate student in Computer Science with a focus on Artificial Intelligence and Machine Learning, with proficiency in programming skills using Java and an interest in exploring the world of Machine Learning and Intelligent Systems. Interested in developing practical software applications and exploring the world of Artificial Intelligence using academic projects and research-oriented learning methods.

Educational Qualifications

Bachelor of Technology in Computer Science Engineering(AI&ML)
AVN Institute of Engineering and Technology, Ibrahimpatnam
2023 – 2027 | **CGPA :** 8.81

Board of Intermediate Education
Vidya Vikas Junior College, Bodhan
2021 – 2023 | **Percentage :** 95.9%

Secondary School Certificate (SSC)
Matrix High School, Varni
2020 – 2021 | **CGPA :** 10.0

Projects

1. SmartClass – A Secure Attendance System (Prototype)
Technologies: HTML, CSS, JavaScript, Python (Flask)
Designed and developed a prototype system that can handle student attendance using QR code and face recognition technologies.
Designed and developed the user interface that can be used by teachers to manage the attendance of the students.
Designed and developed the backend using the Flask framework with database integration.

2. Personal Portfolio Website
Technologies: HTML, CSS, JavaScript
Created a personal portfolio website with projects and technical skills.
Added a clean UI and responsive design for accessibility.

3. SkillPilot – AI Powered Learning Path Advisor
Technologies: IBM Watsonx, Generative AI
Developed a Generative AI based assistant that recommends personalized learning paths. Uses user interests, skill level, and career goals to suggest learning resources.
Implemented using IBM Granite model and Watsonx services.

Certifications

1. AI Fundamentals – IBM SkillsBuild
2. Getting Started with AI – IBM SkillsBuild
3. Machine Learning with Python – IBM Cognitive class
4. Power BI – OfficeMaster

View all Certificates

Technical Skills

Programming: Java, Python, C
Web Development: HTML, CSS, Bootstrap
Backend Development: Flask
Database: MySQL
Data Visualization: Power BI

Internships

AI & Cloud Internship – Edunet Foundation (IBM SkillsBuild)

July 2025 – August 2025

• Successfully completed the training program on the basics of Artificial Intelligence.

• Used the IBM SkillsBuild platform to gain insights into the development of AI models.

Achievements & Activities

• Finalist in Internal College Technical Quiz Competition

• Participated in College Hackathon to solve real-world problems

• Presented a technical paper in the College Symposium

• Acted as Event Coordinator in College Technical Fes
